## ORGANIZATIONAL EXPERIENCE

---

Nov-2015 to Aug-2016

[Ksquare IT solutions Inc](#)

Product Engineer

Ksquare IT solutions is a world-renowned global service company that helps clients transform in areas of business, marketing, and technology. It specializes in marketing, advertising, consulting, trading and risk management.

### **Provisioning System for selective customer data migration (Team Size: 25)**

The purpose was to provide an interface to migrate customer data from current mobile network to an advanced network based on the willingness of customers, ensuring minimum

manual intervention. The solution was a J2EE application (Struts framework) using Oracle 12c database and Tomcat server. Log4J was used for logging and Castor for XML message generation. Hibernate was chosen as the ORM tool.

**Role : Developer** – Designed JSPs from wire-frames and requirement documents, using tag libraries and created CSS markup for the entire application.

**Recognitions** – Was highly appreciated by the client for suggesting additional enhancements and by the team for client-focused delivery, leadership & creativity.

Jan-2013 to Sep-2015	<a href="#">Sqa Concepts Inc</a>	Associate Technology
----------------------	----------------------------------	----------------------

Sqa Concepts is a software outsourcing company. Its service domain includes e-learning, web design and development, social media applications, custom software development, content management system, mobile application development and e-commerce solutions.

**Role : Developer** – Worked on various aspects of the application including initial requirement and design phase, back-end development as well as front-end implementation. Also worked as testing-lead for an iteration.

**Recognitions** – Was recognized as a star developer time & again and was always chosen for client interaction and handling technical aspects in a sales pitch.
